The Letters of Acceptance are given to the public this morning. By these all doubts must be removed as to the position of Governors TILDEN and HENDRICKS. No one can any longer retain a suspicion that they are not in strict accord on the important matters now demanding settlement. > THE CHRONICLE FOR THE CAM-PAIGN.

In view of the approaching presidential campaign, it is to be anticipated that an increased demand will arise for prompt and accurate political intelligence. With a view of supplying this demand, we desire to say that we shall always in future, as in the past, endeavor to keep up with the exigences of the times; all information in regard to both the presidential campaign and the county canvass will be given with promptitude and accuracy to the utmost of our ability, and the comments which we may feel called upon to make on the events which may arise will be dictated by the same principles which have hitherto been our guide. These are the vigorous advocacy of REFORM and uncompromising hostility to corruption in Federal affairs, maintaining our adhesion to the cause of Tilden and Hendricks, who were our choice as candidates for the Presidency long before the convention at St. Louis; and in State politics the conscientious

maintenance of the credit of the State. Our subscription list is at this time larger and more lucrative than it has been since our journal was first offered to the public in 1833, and to advertisers we may say without presumption, that no better medium of publicity can be procured throughout this region of country.

Reform is necessary in the civil service. Experience proves that efficient, economical conduct of the government business is not possible if its civil service be subject to change at every election, be a prize fought for at the bailot box, be a brief reward of party zeal, instead of posts of honor assigned for proved competency, and held for fidelity in the public employ; that the dispensing of patronage should neither be a tax upon the time of all our public men, nor the instrument of their ambition. Here again promises falsified in the performance, attest that the party in power can work out no practical or salutary reform.

The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. Reform is necessary even more in the higher grades of the public service. President, Vice-President, Judges, Senators, Representatives, Casinet officers, these and all others in authority are the people's servants. Their offices are not a private perquisite—they are a public trust.

When the annals of this Republic show the disgrace and censure of a Vice-President; a late Speaker of the House of Representatives marketing his rulings as a presiding officer; three Senators profiting secretly by their votes as law-makers; five chairmen of the leading committees of the late House of Representatives exposed in jobbery; a late Secretary of the Treasury forcing balances in the public accounts; a late Attorney-General misappropriating public funds; a Secretary of the Navy enciched or enriching friends, by percentages levied off the profits of contractors with his department; an Embassador to England censured in a dishonorable speculation; the President's Private Secretary barely escaping conviction upon trial for guilty complicity in frauds upon the revenue; a Secretary of War Impeached for high crimes and misdemeanors,—the demonstration is complete, that the first step edy. Reform can only be had by a peaceful Civic Revolution. We demand a change of system, a change of administration, a change of measures and of men.

We denounce the present Tariff, levied We denounce the present Tariff, levied upon nearly 4,000 articles, as a master-piece of injustice, inequality, and false pretence. It yields a dwindling, not a yearly rising revenue. It has impoverished many industries to subsidize a few. It prohibits imports that might purchase the products of American labor. It has degrated American labor. It has degrated American commerce from the first to an inferior law commerce from the first to an inferior day in February and 4th Monday in August.

It has cut down the sales of American manufactures at home and abroad, and depleted the returns of American agriculture—an industry followed by half our people. Dover, Stewart county, 2nd Mondays in Reform is necessary in the scales of Pub-lic Expenses—Federal, State, and muni-cipal. Our Federal taxation has swollen from 60 millions gold in 1860 to 450 millions currency in 1879; our aggregate taxation from 154 millions gold in 1860 to 730 millions from 154 millions gold in 1860 to 756 millions currency in 1870; or in one decade, from less than \$5 per head to more than \$18 per head. Since the peace the people have paid to their tax-gatherers more than thrice the sum of the national debt, and more than twice that sum for the Federal Government alone. We demand a rigorous frugality in every department, and from every officer of the Government.

Reform is necessary to put a stop to the profligate waste of public lands and their diversion from actual settlers by the party in power, which has squandered 200 millions of acres upon railroads alone, and out of more than thrice that aggregate has disposed of less than a sixth directly to tillers of the soil.
